## CAREER OBJECTIVE

---

I am a passionate developer with a strong foundation in web development and problem-solving. Having solved over 90 coding challenges on LeetCode, I am eager to apply my skills in a professional setting. I strive to build scalable applications and continuously expand my expertise in full-stack development. My goal is to contribute to innovative projects while growing in a dynamic and challenging environment.

## EDUCATION

---

### Bachelor of Technology

Dr. K.N Modi University Newai Rajasthan (Jaipur)  
CGPA:-8.2 (Upto 5 sem)

2022-2026

Major: Computer Science

### Senior Secondary Education

Sri Ram inter college  
CGPA:-8.02

2021-2022

Major: Science Stream

## SKILLS

---

- **Programming Languages:** C C++ ★★★★★
- **Frontend:** HTML, CSS, JavaScript, React, Tailwind CSS , Bootstrap ★★★★★
- **Soft Skills:** Communication, Problem-Solving ★★★★★

## PROJECTS

---

### To-Do list

- A To-Do List App built with JavaScript allows users to add, remove, and mark tasks as completed. It provides a simple and interactive way to manage daily tasks with a clean UI.

### Weather API App

- A Weather App built with React fetches real-time weather data using an API. Users can enter a city name to view the current temperature, weather conditions, and other details in a simple and interactive UI.

### BMI Calculator

- A BMI Calculator App built with React allows users to input their weight and height to calculate their Body Mass Index (BMI). It provides instant results with health category classifications (e.g., underweight, normal, overweight).

## ACHIEVEMENTS

---

### Leet Code

- Leet Code Badge for 50 days continuously solving the problem on platform

### Internship Studio

- Certificate of participating and securing **A.I.R 491** in **COMMON INTERNSHIP TEST (CIT)**

### WsCubeTech

- Certificate of participating in masterclass on **Master SQL Basics**
